☐ ii. Credit Card Payment Form, PTO-2038, is attached authorizing payment of the fee set forth in 37 CFR §1.17(p), presently believed to be \$180. If the enclosed payment is incorrect, please charge any additional fees or credit any overpayment to Deposit Account No. 02-4035 of the undersigned.

☒ 2. In accordance with 37 CFR §1.98, this IDS includes a list (e.g., form BN/SB/08A/B) of all patents, publications, or other information submitted for consideration by the office, either incorporated into this IDS or as an attachment hereto. Other than U.S. patent(s) and/or published U.S. application(s), which 37 CFR §1.98(a)(2)(ii) does not require to be filed

unless specifically required by the Office, a copy of each document listed is attached, except as explained below:

☐ A. Document(s) _____ is/are deemed substantially cumulative to document(s) _____, and, in accordance with 37 CFR §1.98(c), a copy of each of the former document(s) is not enclosed.

☐ B. Certain documents were previously cited by or submitted to the Office in the following prior application(s), which are relied upon under 35 U.S.C. 120:

(insert serial numbers and filing dates of prior applications)

Applicant identifies these documents by attaching hereto copies of the forms PTO-892, PTO-1449, PTO/SB/08a and/or PTO/SB/08b (or their BN form equivalents) from the files of the prior application(s) or a fresh BN/SB/08A and/or BN/SB/08B listing these documents, and request that they be considered and made of record in accordance with 37 CFR §1.98(d). Per 37 CFR §1.98(d), copies of these documents need not be filed in this application.

☒ 3. Documents AK, AM, and AO are not in the English language. In accordance with 37 CFR §1.98(a)(3), Applicant states:

☒ An English translation of each document AK, AM, and AO (or of the pertinent portions thereof), or a copy of an English-language abstract (or claim) is enclosed.

☒ For documents AM and AO, a corresponding English-language patent or published application is included on the accompanying Form BN/SB/08A, with a line drawn in the margin connecting the non-English-language document with its corresponding English-language document.

☐ A concise explanation of the relevance of document(s) _____ is found in the attached

_____ search report (see reply to
Comment 68 in the preamble to the final rules;
1135 OG 13 at 20).

[X] A concise explanation of the relevance of
documents AK, AM, and AO is set forth as follows:

(1) Japanese patent publication (Koukoku) No.62-037782B (AK)

Document (AK) discloses the patented claims of
Japanese Patent No.1, 688,677.

The patented claims include only one claim, and
teach a magnetic carrier particle having a composition of the
following formula [I] represented by a divalent metal oxide
and a trivalent metal oxide:

where M represents Mg or a combination of Mg with
one or more of Zn, Cu, Mn and Co, provided that if M includes
Mg and one or more of other elements, the atomic ratio of Mg
in M is at least 0.05; and x is more than 53 mol%.

Document (AK) teaches that the saturation
magnetization of the particle is preferably at least 35emu/g,
but does not teach the dielectric breakdown voltage defined in
the amended claims.

(2) Japanese Patent No.3,243,376 (AO)

The claims of this patent (Document (AO)) teach that
the ferrite carrier should contain MnO, MgO and SrO as the
essential components. Meanwhile, the ferrite material of the

present invention does not contain MnO as the essential components. The present invention is different from the invention of the above patent in this point.

(3) Japanese Patent No.2, 860,356 (AM)

This patent (Document (AM)) relates to a magnetic oxide particle composed of magnetite (Fe_3O_4) and non-magnetic phase. Meanwhile, the ferrite material of the present invention does not contain magnetite. The present invention is different from the invention of the above patent in this point.

Please refer to table 1 of the U.S. patent No. 5,538,656.

[X] A concise explanation of the relevance of documents AK, AM, and AO can be found on pages 3-4 of the specification.

[] A concise explanation of the relevance of document(s) _____ can be found on the attached sheet.

[X] 4. No explanation of relevance is necessary for documents in the English language (see reply to Comments 67 and 68 in the preamble to the final rules; 1135 OG 13 at 20).

[X] 5. Other information being provided for the examiner's consideration follows:

International Search Report

6. In accordance with 37 CFR §§1.97(g) and (h), the filing of this IDS should not be construed as a representation that a search has been made or that information cited is, or is

considered to be, material to patentability as defined in 37 CFR §1.56(b), or that any cited document listed or attached is (or constitutes) prior art. Unless otherwise indicated, the date of publication indicated for an item is taken from the face of the item and Applicant reserves the right to prove that the date of publication is in fact different.

Respectfully submitted,
